# CREATING OUTSTANDING WASHROOMS WITH THE WOW FACTOR

High quality washrooms are a key feature of a fantastic visitor attraction. Your visitors will be familiar with a certain level of quality whilst visiting your site, and developing your washrooms to match your amazing attractions could leave even more of a positive lasting impression.

Outstanding washrooms should be well designed, durable and easily cleaned to maintain a safe and hygienic environment, and one that will ensure your visitors return. Aaztec can help you achieve washrooms with the 'wow factor' that are unique, stylish and memorable.

We have great expertise in this environment, and for over 25 years have worked with attraction operators, large and small, to design layouts, minimise costs and create exceptional washroom environments with sophisticated and modern facilities that tailor to individual sites.

Aaztec offers a full design service to ensure every cubicle or washroom fits your exact needs in terms of look, feel, materials and durability. We can also advise on DDA compliance and provide finishes and fittings to complement and enhance any design or colour scheme. The high-tech manufacturing capabilities at our factory enable Aaztec to produce any volume of product, from a highly bespoke 'one off' piece, to large quantities for high footfall areas. Every item we produce has our quality guarantee for complete customer satisfaction.

Our accreditations and proficiency enable us to deliver supply only products for contractors to install or manage complete installation or refurbishment projects from start to finish. Our installation teams are highly skilled, experienced and committed, not only to ensuring that your washroom products are fitted just right but also that you are entirely satisfied.

Aaztec is a strategic partner trusted by construction professionals, facility managers and business owners to deliver excellent service and value throughout every stage of a project.

Use our knowledge to your advantage.

# OUR SERVICE

From product quality and design excellence, to dedicated support and responsive service; Aaztec always ensure you receive the VIP experience.

## PRODUCT SELECTION

Our friendly and knowledgeable team will help you choose the most suitable products for your project. Site surveys, technical support and samples are all available.

## ESTIMATING

We provide detailed and comprehensive quotes and can also offer various alternatives and value engineered options.

## DESIGN PROCESS

Highly skilled CAD technicians produce drawings for your approval, illustrating layouts, dimensions and colour choices.

## PRODUCTION

Efficient production methods to decrease lead times, ensuring your products are produced to the highest of quality.

## DELIVERY

Delivering to your proposed destination, wherever that may be, on time and in full.

## INSTALLATION

With accredited installation technicians, we can install all our products to ensure the highest quality control and finish.

# OUR CUSTOMERS

## Aaztec's **MARINE** range at Flamingo Land Resort, Yorkshire

Flamingo Land is Yorkshire's ultimate Theme Park attraction and one of the UK's most visited Zoos. With adrenaline fuelled thrills and over 140 species of animals, the award-winning park is ever expanding with new rides and attractions.

With the opening of the new 'Flamingo 1' kart racing attraction in summer 2017 came the development of a new adjacent entertainment centre, 'The Hub'. It was decided that a racing car themed washroom here would be perfect to match the new exciting attraction. The washrooms needed to be fun with the 'wow factor', but also durable and hardwearing for the high volume of traffic. Aaztec's Marine SGL cubicles were selected with chequered print vanity units, tread plate wall panels, tyre design basins and petrol pump taps.

Peter Keighley, Facilities Manager at Flamingo Land Resort commented "Aaztec brought so much more than their highly durable washroom solutions to our recent hub project. As soon as we saw their racing car/pit stop design ideas, Aaztec were in 'pole position' to help our team at Flamingo Land deliver something different. Working on budget and to tight lead times, Aaztec manufactured and installed the bespoke cubicles and vanity base units on program so that we could open in time for the start of the season."

## Aaztec's **BALTIC** range at Riley-Smith Hall

Riley-Smith Hall is a theatre, ballroom and concert venue. Built in 1924, the hall has since served as a historic family attraction and venue for many different events.

The team at Riley-Smith Hall have undertaken continued maintenance and improvement of the hall and selected Aaztec to help with the most recent washroom refurbishment. Our Baltic range of cubicles with woodgrain doors and aluminium framework along with solid surface washtroughs with sensor taps were the perfect choice.

Christian Horton at Riley-Smith Hall commented "We wanted to create an elegant, luxurious washroom experience for our visitors in keeping with the glamorous feel of the 1924 ballroom. We are absolutely delighted with the results and customer feedback has been superb; comments range from 'I could live in these toilets' to 'oh my gosh they're unbelievable'. I would definitely recommend Aaztec to anyone considering new washrooms."

## Aaztec's **MARINE** range at the Yorkshire Showground and Event Centre

The Yorkshire Showground and Event Centre hosts an array of family friendly events such as the annual Great Yorkshire Show, England's premier agricultural event, and Ultra Con, an unmissable experience for all fans of Sci-Fi.

For the refurbishment of the Rotunda, a circular external building in the grounds near the grandstand and Tandem Tops, the team wanted to really personalise the washrooms and incorporate a fun farm animal theme that was reflective of the Showground's agricultural roots. The Marine cubicle doors were digitally printed with some fantastic photographs of the animals to achieve the 'wow factor'.

Heather Parry, Managing Director of Yorkshire Event Centre Ltd commented "Aaztec have provided our washroom solutions for many years, from the brand new exhibition complex to Fodder – our award winning farm shop and café. The Aaztec products are second to none and our new farm animal washrooms are receiving exceptional reviews and leaving positive lasting impressions with all of our visitors."

## OUR PRODUCTS

### Cubicles

Stylish, durable and versatile; we offer a wide range of **CUBICLES** for all environments.

We manufacture our cubicles in a variety of different materials to suit the individual requirements and budgets of our customers, and the environments they are to be installed in.

Our collections include Premier, Deluxe, Essential, Children's and Individual so there is sure to be a range for you. Please request our Washroom Collection brochure for more information.

### Vanity Units

**VANITY UNITS** are available to suit our complete range of cubicles and washroom systems.

Vanity units are available using our complete range of materials including solid grade laminate and high pressure laminate. They can also be constructed from solid surface materials such as Corian, as well as an innovative range of recycled materials.

They are available in various heights and depths, suitable for various basin styles and even compatible with solid surface or stainless wash troughs.

### Ducts & Wall Panels

**DUCT PANELS** to conceal pipework and easy to clean **WALL PANELS**.

Aaztec's duct panels can be manufactured in a variety of our panel materials to complement and enhance any washroom. These panels provide space for concealed cisterns, thermostatic valves or general pipework, maintaining a designed appearance and providing a clean, attractive finish to the walls.

Wall panels are a popular way to replace tiles and decorated walls with a hard wearing, and in most cases, a waterproof surface that's hygienic and easy to clean with no grout lines to harbour mould and bacteria. The panels come in a wide range of surface finishes and colours to complement any washroom interior.

### Sanitaryware & Accessories

An extensive range of stylish **SANITARYWARE** and washroom **ACCESSORIES**.

We supply many leading brands of sanitaryware, from full ranges to individual pieces. From wall hung pans to eco flushing cisterns, sensor taps to designer wash troughs, showers to urinals – Aaztec have the ideal solution.

Washroom accessories are available to match and complement all of Aaztec's cubicle and panel ranges, such as energy efficient hand driers and automatic soap and paper towel dispensers.
