Committed to the Environment

Swiss Krono CDF is processed using 95% renewable energy, and is FSC® certified as standard (PEFC™ certified on request). 100% recyclable, it can also be burnt in biomass to create energy at the end of its lifespan.

SWISSCDF

Washroom Collection

The Swiss Krono CDF collection provides a hardwearing and stylish solution for a number of applications.

Ideal for use in cubicles and washrooms, it can also be used in laboratories, retail interiors, schools and universities for lockers, desks, wall panelling, counter tops and more.

CDF is 30% lighter than Compact laminate and doesn't require any special tooling or fittings so is quicker to cut and profile, offering a significant cost saving.

Our UK stock range offers a choice of 12 popular colour and woodgrain designs, all available for 24-48 hour delivery throughout the UK. In addition, each décor is also available in both MFC and laminate sheets to ensure a complete solution.

24-48 hour delivery throughout the UK, from single sheets to pallet quantities.

Sheet size 2800 x 2070 x 12.8mm. Alternative designs, textures and thicknesses available, please contact us for further information (minimum order quantity and/or lead time may apply).

* Please note CDF is 12.8mm thickness as standard – 6mm samples are for demonstration purposes only.

Disclaimer: Due to variables in the photographic and printing processes, colours shown may vary from the actual product.
